TO BE COMPLETED BY THE REPORTING CARRIER, IF THE REPORTING CARRIER IS FILING ANNUAL REPORTING ON ITS OWN BEHALF:

Certification of Officer as to the Accuracy of the Data Reported for the Annual Reporting for CAF or LI Recipients I certify that I am an officer of the reporting carrier; my responsibilities include ensuring the accuracy of the annual reporting requirements for universal service support recipients; and, to the best of my knowledge, the information reported on this form and in any attachments is accurate. Name of Reporting Carrier: COLTON TEL CO Signature of Authorized Officer: CERTIFIED ONLINE Date 06/24/2014 Printed name of Authorized Officer: Steven Krogue Title or position of Authorized Officer: Chief Operations Officer Telephone number of Authorized Officer: 5038243211 ext. Study Area Code of Reporting Carrier: 532364 Filing Due Date for this form: 07/01/2014 Persons willfully making false statements on this form can be punished by fine or forfeiture under the Communications Act of 1934, 47 U.S.C. §§ 502, 503(b), or fine or imprisonment under Title 18 of the United States Code, 18 U.S.C. § 1001.

Colton Telephone Company Five Year Service Quality Improvement Plan 2015-2019

PREAMBLE

This 5 year improvement plan is a section of the Company's 2014 Annual Report. It is in compliance with § 54.313(a)(1) adopted in the FCC's USF/ICC Transformation Order (11-161). This document also incorporates further clarifications identified in subsequent Reconsideration Orders, as applicable, in effect prior to the filing of the Annual Report.

Colton Telephone Company ("ColtonTel") has carefully developed its improvement plan, concentrating on the delivery and continuation of a robust network which provides, at a minimum, the federally required voice and broadband connectivity as stipulated by regulatory rule.

ColtonTel advises that this improvement plan has been carefully crafted, matching measured network deployment, improvement and quality service levels with known financial implications of the Transformation Order upon the company's support cashflows. The uncertainty of such cash flows being received in the outer-years as a result of current and potential regulatory action on rural rate-of-return carriers has resulted in the Company taking a balanced yet realistic approach.

The environment in which the Company operates remains dynamic, not static. As a result, ColtonTel reserves the opportunity to modify its plan in response to further regulatory decisions as they are adopted, and their implication upon the Company's financial viability in providing the required services and service level quality becomes known.

ColtonTel will re-evaluate this plan on an annual basis. Action, however, may also be taken abruptly on the presented plan for both current and outer years in the event of evolving regulatory conditions and/or changes in technology (vendor)-driven support. All adjustments to the improvement plan in this document will be reflected and explained in subsequent annual reports.

INTRODUCTION

ColtonTel is a cooperative established in 1912 in the unincorporated community of Colton, Oregon. ColtonTel provides voice, data, and video services to a single exchange (Colton) and operates with eight full time employees. The ColtonTel service area is a "bedroom" community of the Portland area and is primarily residential, with a small number of businesses. These businesses are predominantly home-based. The anchor institution consists of one school district with three campus locations. There are no community centers or public service institutions, such as libraries or medical facilities.

ColtonTel serves a single wire center that covers approximately 62 square miles of contiguous area. There are approximately 1,064 homes and 3,000 residents. Every home served with voice services is also capable of receiving broadband service with at least minimum download speeds of 4 Mg and minimum upload speeds of 1 Mg. ColtonTel does not currently offer data only broadband service. The current broadband penetration rate is 80%. There are currently no unserved customers within the ColtonTel exchange.

ColtonTel faces the challenge of a serving area with rugged terrain, a small number of local businesses, and few anchor institutions. In recognition the company has carefully planned and utilized resources in a cost effective manner while continuing to upgrade, and maintain, a reliable network. To continue this responsibility, ColtonTel has acquired funding in the form of a loan from the Rural Utility Service. This loan agreement was effective July 25, 2013 for the amount of \$7,330,000. These funds will be utilized to ensure updated, reliable, and cost effective services to subscribers for years to come by upgrading the entire service area from copper to fiber.

Prior to 2015, approximately 41% of ColtonTel customers, about 435 subscribers, will be served with a fiber to the home connection. The fiber construction for an additional 23%, or 240 customers, will be completed with preparations necessary to connect those homes in 2015. This project will cover approximately 48 square miles. ColtonTel has invested approximately \$1.2 million of general funds in this project and will utilize approximately \$2.9 million in loan funds from RUS.

Customers served by fiber will be offered broadband packages with download speeds ranging from 10 Mg to 75 Mg. The remaining customers, serviced by copper connections, have broadband packages available with download speeds ranging from 2 Mg to 10 Mg. Every customer in the service area has access to a 10 Mg service, however, many chose to subscribe to the lower 2 Mg service due to affordability issues.

ColtonTel will continue to use the existing soft switch equipment throughout this project. Upgrades will be made only as required to accommodate the new FTTH network. (See attached map - Phase I)

SUPPORT FUNDING

Consistent with Commission requirements, this Service Quality Improvement Plan addresses only ColtonTel's regulated eligible telecommunications carrier operations. A detailed description of ColtonTel's plans for the provision of the supported services in the five-year period starting with January 2015 is provided herein.

¹Per 47 C.F.R. § 54.314, federal USF support, "will be used only for the provision, maintenance, and upgrading of facilities and services for which the support is intended." If investments or expenses are for service areas larger than the supported service areas, then allocations of the expenditures are required.

Per the Universal Service Administrative Company (USAC), for the calendar year 2013, ColtonTel received a total of \$1,059,189 (as of 6/20/14) in USF support funds. The breakdown of the funding for the year was:

- \$ 564,405 High Cost Loop Support,
- \$ 15,912 Local Switching Support
- \$ 91,002 Connect America Fund-Intercarrier Compensation Support
- \$ 387,870 Interstate Common Line Support

All funds were used in 2013 to both: 1) maintain, upgrade, and improve the Company's network and, 2) cover its operating expenses and debt commitments as necessary to permit it to offer a high level of service for both voice and broadband throughout its service area. Support funds represent approximately 59% of the operating revenues of ColtonTel.

IMPROVEMENT PLANS BY YEAR (2015-2019 Inclusive)

2015

During 2015, ColtonTel plans to connect the customers to the mainline constructed in the prior year, Phase I. The cost of these connections, and the related electronics, will be approximately \$800,000. In addition, ColtonTel will complete the construction necessary to provide fiber to every customer within the exchange, Phase II. This will cover an additional 14 square miles and provide fiber service to an additional 19% of customers, about 200 subscribers, in 2015. The remaining 17% of customers, approximately 190, will be connected in 2016. This project will cost approximately \$2.4 million and will be funded primarily with RUS loan funds. ColtonTel plans to utilize general funds, which includes support funding, as much as possible to reduce the total loan amount. (See attached map – Phase II)

2016

In 2016, ColtonTel will finish connecting the remaining 17% of customers (a total of 190 covering 7 square miles) to the fiber mainline constructed in 2015. The cost of these connections and related electronics will be approximately \$600,000. This will provide every subscriber in the service area with access to broadband download speeds up to 75 Mg. and will enable ColtonTel to offer increased speeds to meet future demand.

2017-2019

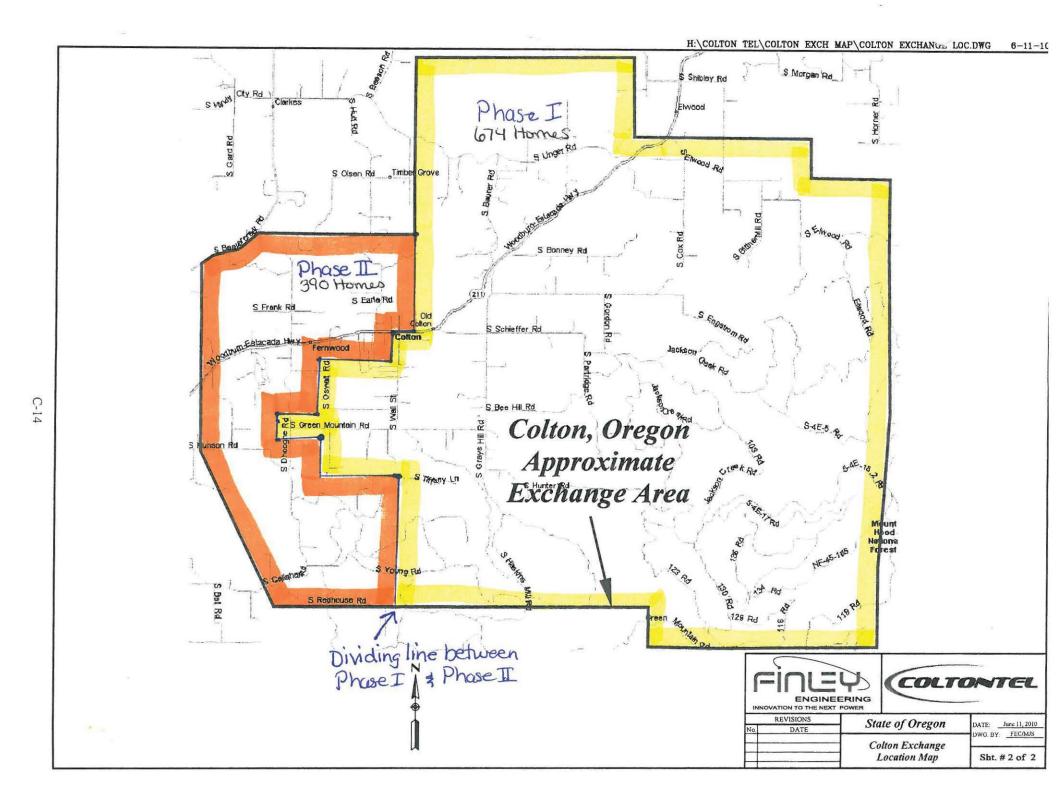

For 2017 through 2019 ColtonTel has no specific capital improvements planned. The company will maintain the fiber network and upgrade electronic equipment as needed to meet customer demands for greater broadband speeds and to avoid obsolescence.

An average of general capital expenditures for prior years supports a budget of approximately \$200,000 per year for ongoing capital investments including general

purpose computers, vehicles and lift trucks, and electronic equipment for the maintenance and upgrade of the network.

CONCLUSION

The five-year plan for the provision of supported services by ColtonTel will result in a Fiber to the Home connection for every subscriber in the exchange. This will position the company well to meet future service requirements and is expected to reduce ongoing maintenance costs. The feasibility of this project is dependent on support funding to meet the proposed deployment schedule and to enable ColtonTel to service its current and future debt obligations to RUS.

COLTON TELEPHONE COMPANY

2014 Annual 54.313 Report of High-Cost Recipient

Line 510 Documentation

54.313(a)(5) Satisfaction of Consumer Protection and Service Quality Standards

Consumer Protection

Colton Telephone Company complies with the requirements of 47 CFR Part 64 Subpart U, Customer Proprietary Network Information and the Federal Trade Commission Red Flag rules to prevent identity theft. A manual for each of those programs is in place and is part of the employees' handbook. Employee training is conducted annually and new hires are instructed on the programs as required by their job functions.

Service Quality Standards

Colton Telephone Company complies with the service standards of the State of Oregon as promulgated in the Oregon Administrative Rules 860-034-0390, Retail Telecommunications Service Standards for Small Telecommunications Utilities.

COLTON TELEPHONE COMPANY

2014 Annual 54.313 Report of High-Cost Recipient

Line 610 Documentation

54.313(a)(6) Ability to Remain Functional in Emergency Situations

Back-up Power

Colton Telephone Company has the following back-up power capabilities:

Switch

Katolight Generator Model D150FPV4 150 Kilowatts with a diesel tank capacity of 550 gallons. Operation time of 50 hours with a full load.

Subscriber carrier

Nine remote DLC sites each contain the same back-up power capability. Batteries in each site provide at least 8 hours of runtime. Any power outage automatically triggers an alarm for a technician callout. Outside plant crews provide auxiliary generators to each site to maintain power as needed. The generators are 220v, 5000 watt, gasoline powered. The capacity of 6 gallons allows for a runtime of 11 hours at 50% load.

Network Interface Devices (NIDs)

Colton Telephone Company has 824 customers with metallic (copper) connections to the Central Office and Subscriber Carrier sites. These NIDs are powered from the Central Office and the fiber-fed Subscriber Carrier sites. Colton also has 103 customers with fiber connections. These NIDs are powered over a copper connection from the Central Office.

Ability to reroute traffic around damaged facilities:

Colton Telephone Company currently has 2 OC3 facilities to create a SONET ring on redundant fiber to Molalla Communications and Canby Telephone, This ring carries toll and EAS trunking through Molalla, Canby and off to Centurylink facilities to the toll tandem. Colton Telephone Company also has 2 direct trunks to neighboring Telephone company Beavercreek Cooperative Telephone. These trunks and carry Toll traffic as well as redundant a E911 circuit and SS7 circuit. Colton Telephone also has 2 OC48 facilities to create a SONET Ring to Reliance Connects and Molalla Communications via the WIN Ring (Western Independent Networks).

Capability to manage traffic spikes resulting from emergency situations

Colton Telephone Company has 927 customers, switching capacity of 112,000 concurrent calls and 250,000 busy hour call attempts, and transport capacity for 336 simultaneous calls via outside trunks. Colton Telephone Company takes no responsibility for the capabilities of interconnected networks to manage traffic spikes resulting from emergency situations.

Colton Telephone Company
Terms & Conditions of Voice Telephony Lifeline Plans
FCC Form 481 Line 1210

The Lifeline program for Colton Telephone Company is administered by the Oregon Public Utility Commission (OPUC), through the Oregon Telephone Assistance Program (OTAP). Potential customers apply directly with the OPUC to qualify for a credit of up to \$12.75, which is applicable to eligible telephone plan charges. The OPUC notifies Colton Telephone of customer eligibility. Customers can choose any telephone plan offered by Colton Telephone Company and will continue to receive the Lifeline credit until Colton Telephone is notified by the OPUC that they are no longer eligible, or until the customer disconnects service. The OPUC application for Lifeline service, which details the terms and conditions of the plan, is included on the following four pages.

54.313 Lifeline customers MOU and additional toll charges

Lifeline subscribers receive the same residential service as a regular subscriber, but at a reduced monthly recurring rate. Thus, lifeline subscribers have an unlimited number of local calling minutes. As for toll, lifeline subscribers, similar to every Colton Telephone Company subscriber, are free to choose their own toll usage plans through IXCs that serve Colton Telephone Company.
